

ROS 2 Status Update

Katherine Scott
Developer Advocate
Open Robotics
@kscottz

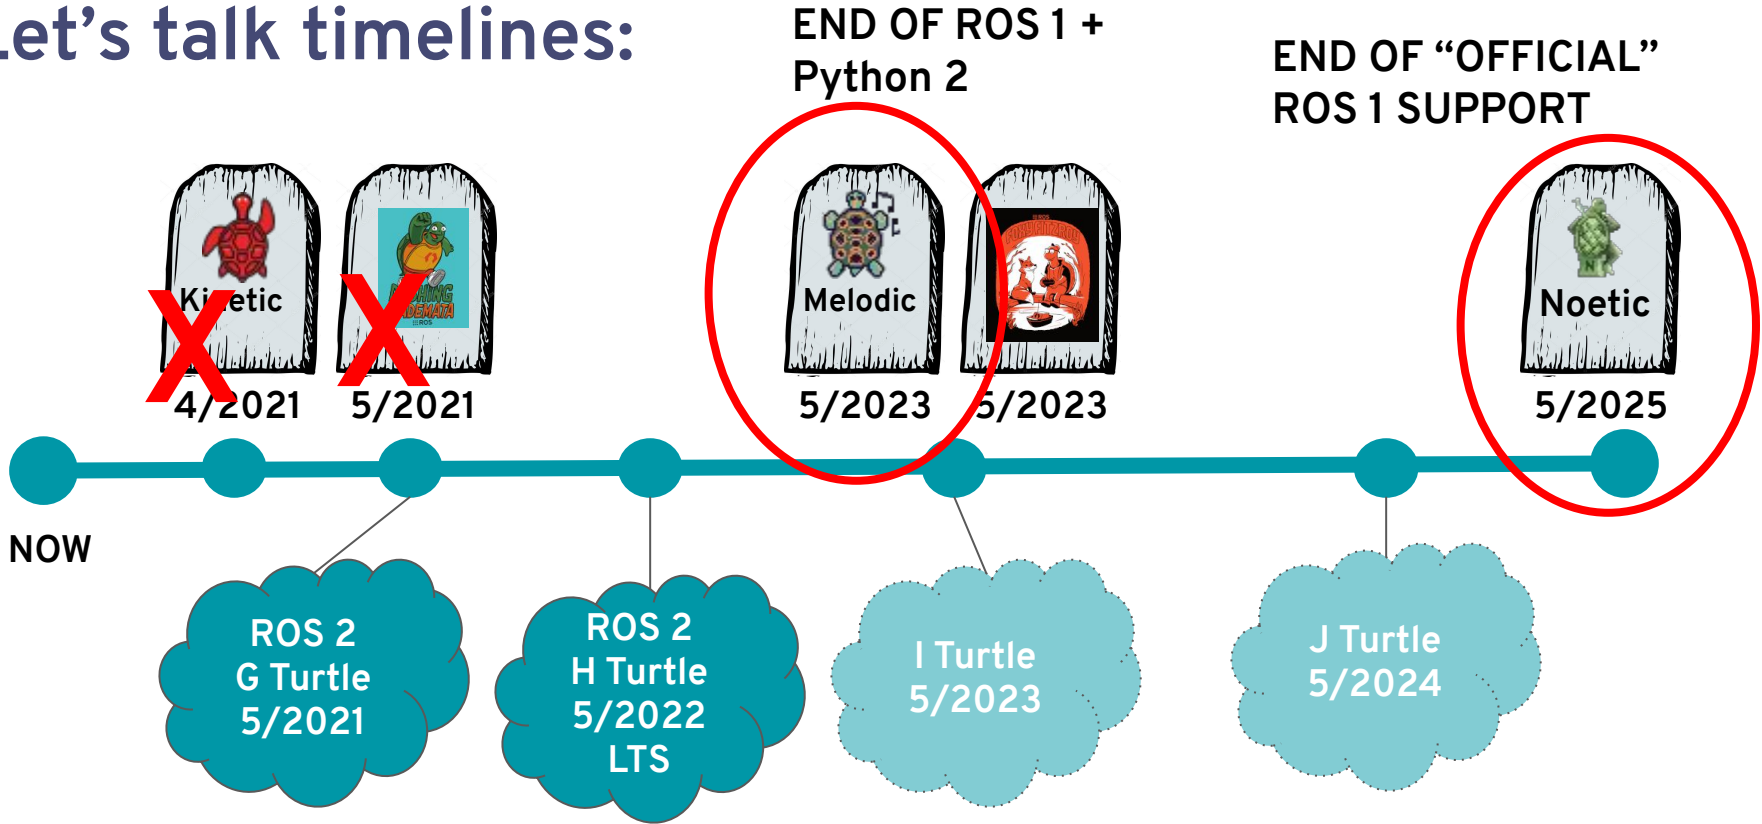

Agenda

- 1) Kinetic goes EOL
- 2) Galactic Update / RMW Info
- 3) Some Data
- 4) Transition Resources
- 5) Events / Errata

Let's talk timelines:

Let's talk timelines:

Take Homes on ROS 2

- ~2 years left for Python 2
- ~4 years left for ROS 1
- The clock is ticking! -- thanks @dlu!

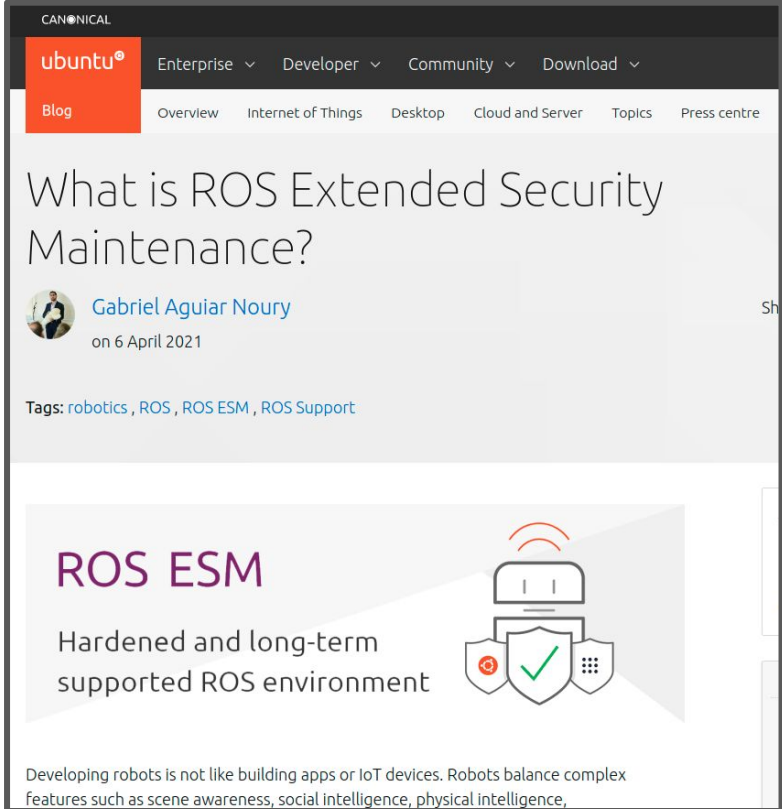

ROS 1 Kinetic Kame

- OFFICIAL EOL IS 4/30/2021
- LAST UPDATE IS THE END OF APRIL
- PLEASE, PLEASE, PLEASE, SYNC
- Kinetic to Melodic really should be trivial
- However, for the slackers...

New Canonical + Open Robotics Offering

- Open Robotics recently partnered with Canonical to offer “extended security maintenance” or ESM
- Kinetic updates, security patches, support.
- This *is* a step towards more industry friendly ROS.
- This *is not* an excuse to avoid upgrades.
- Details: bit.ly/ROS-ESM

What is ROS Extended Security Maintenance?

 Gabriel Aguiar Noury
on 6 April 2021

Tags: [robotics](#), [ROS](#), [ROS ESM](#), [ROS Support](#)

ROS ESM

Hardened and long-term supported ROS environment

Developing robots is not like building apps or IoT devices. Robots balance complex features such as scene awareness, social intelligence, physical intelligence,

ROS 2 Galactic Geochelone! (Non-LTS)

- Release scheduled ~5/23/2021
- This is a non LTS release
- New **default** RMW
 - Your mileage may vary!
- Details: bit.ly/ROS-Galactic

ROS 2 Galactic Geochelone Features

- Lots of Logger Love
 - Per-logger levels
 - Environment Variable Logger Settings
- External QoS Settings at Start
- TF2 Python Refactor
- General RMW API Improvements
- RCL's Lifecycle State Machine: new init API
- Details: bit.ly/ROS-Galactic

ROS 2 Galactic Geochelone! (Non-LTS)

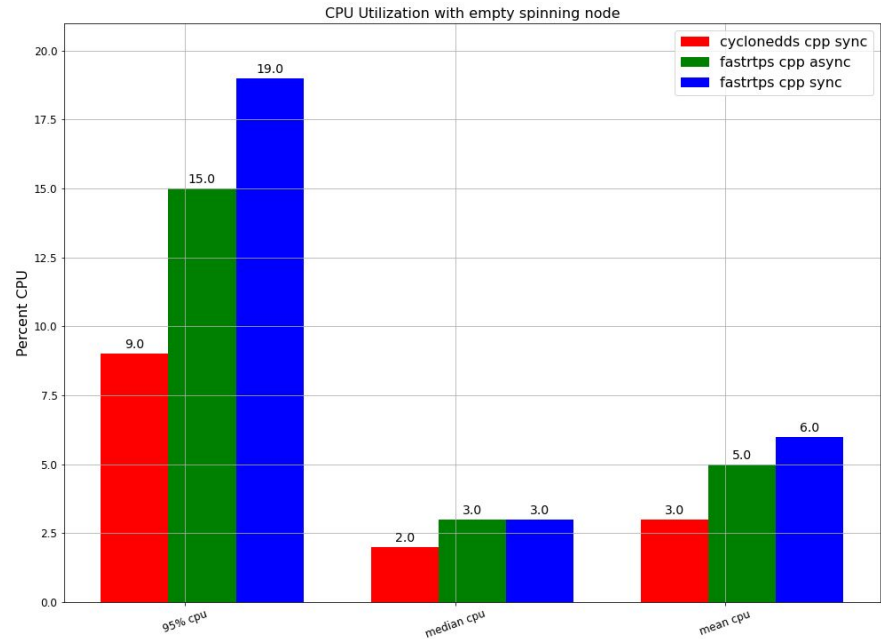

bit.ly/ros2-space

“Collaborations with industry are also feeding into key aspects of VIPER’s software operating system. Rather than creating only custom code, the rover’s flight and ground-based software will make extensive use of open source software, including key components adapted from the Robot Operating System 2 (ROS 2) which is widely used in everything from robot vacuum cleaners to autonomous drones and self-driving cars. This approach allows for a rapid, agile, and cost-effective way of developing the rover’s software systems that can also benefit future rovers on the Moon and beyond. “

<https://www.nasa.gov/viper/lunar-operations>

NEW: Regular RMW Report

- For each release evaluate Tier 1 ROS RMWs
- TSC evaluates and votes on *default*
 - Default != “best for everyone”
- Balance of real world and simulated testing along community survey data
- Moving from FastDDS to Cyclone
 - This could change with H Turtle
- Details: bit.ly/ROS-RMW-Report

ROS 2 Transition Update

ROS Index Download Percentage

2020 vs 2019

ROS 2 Transition Update

ROS Index Download Percentage: March 2020 vs. March 2021

March 2021 vs.
March 2020

ROS Usage Update

**94% increase in
ROS Downloads in
2020**

Total Deb Downloads 2019	264,103,294
Total Deb Downloads 2020	512,482,844
Difference	248,379,550
Percent Increase	+94%

ROS 2 Transition Help

- Lots of other tools to help you transition your project.
- I made a “cheat sheet” with some resources.
- Cheat Sheet Includes:
 - Conversion Tools
 - Porting Requests
 - Videos
 - Guides

bit.ly/ROS2CheatSheet

ROSCon is Back in 2021!

- NOLA: In person + live stream
- Call for Papers: OPEN
- Call for Workshops: OPEN
- Call for Sponsors: OPEN

- More Info: roscon.ros.org

Errata: Ignition Gazebo / Edifice

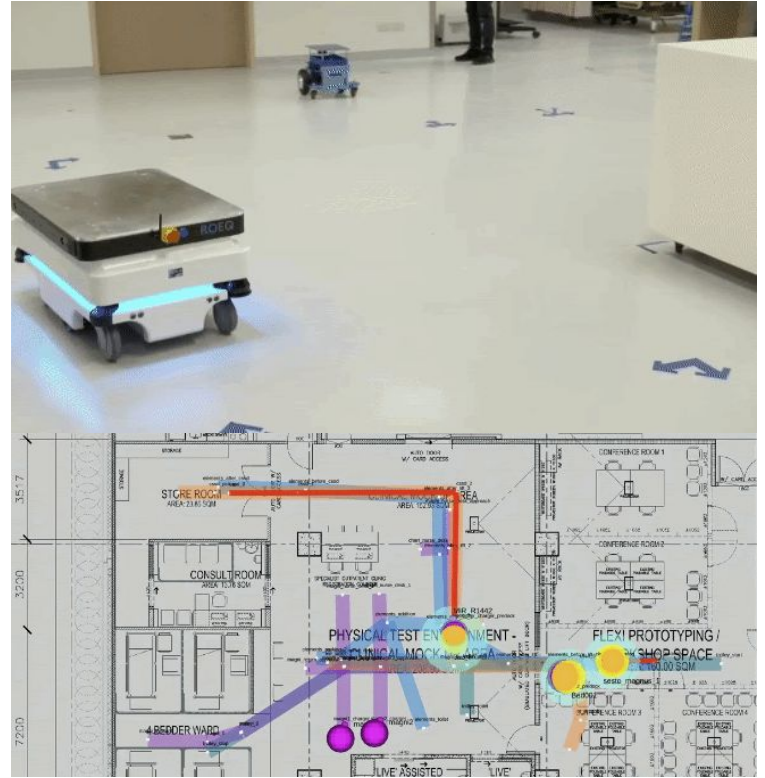

- Latest version of Ignition was just released,
- This is a non-LTS release
- Staggering number of features due to a variety of customer and internal demands
- Rare case where I would say move to non-LTS

- bit.ly/IgnitionRelease

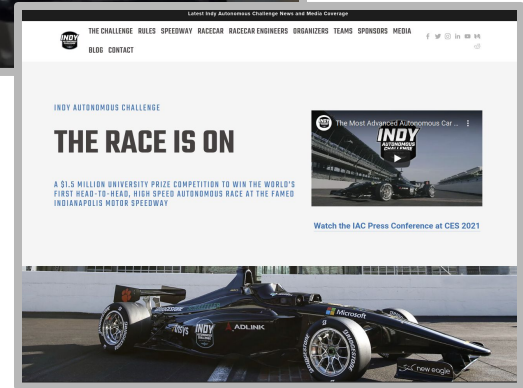

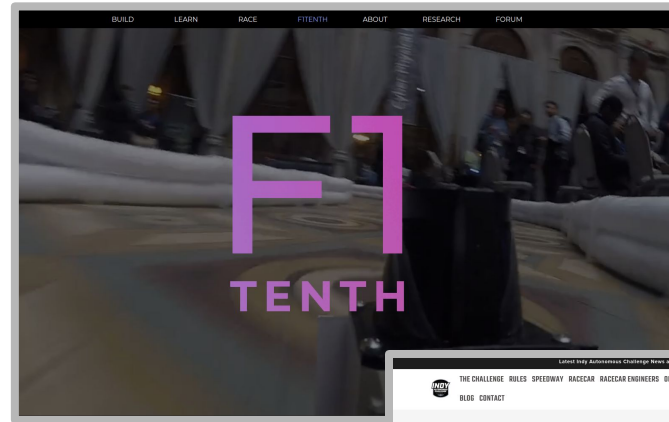

Robot Meta Framework (RMF)

- We rarely talk about our work in Singapore
- Busy building a layer on top of ROS for heterogeneous robot fleets + building infrastructure
- This is widely applicable to AMR systems
- Check out OpenRobots.org

Errata: Grow Your Own Engineers

- *We frequently get asked where to hire ROS engineers*
- Discourse job category
- Great engineers need to be trained:
 - ROSCon diversity scholarships
 - Black in Robotics workshops
 - F1/Tenth
 - Indy Autonomous Challenge
 - VRX
- *Please, if you have cycles to spare, consider ROS mentorships and internships*

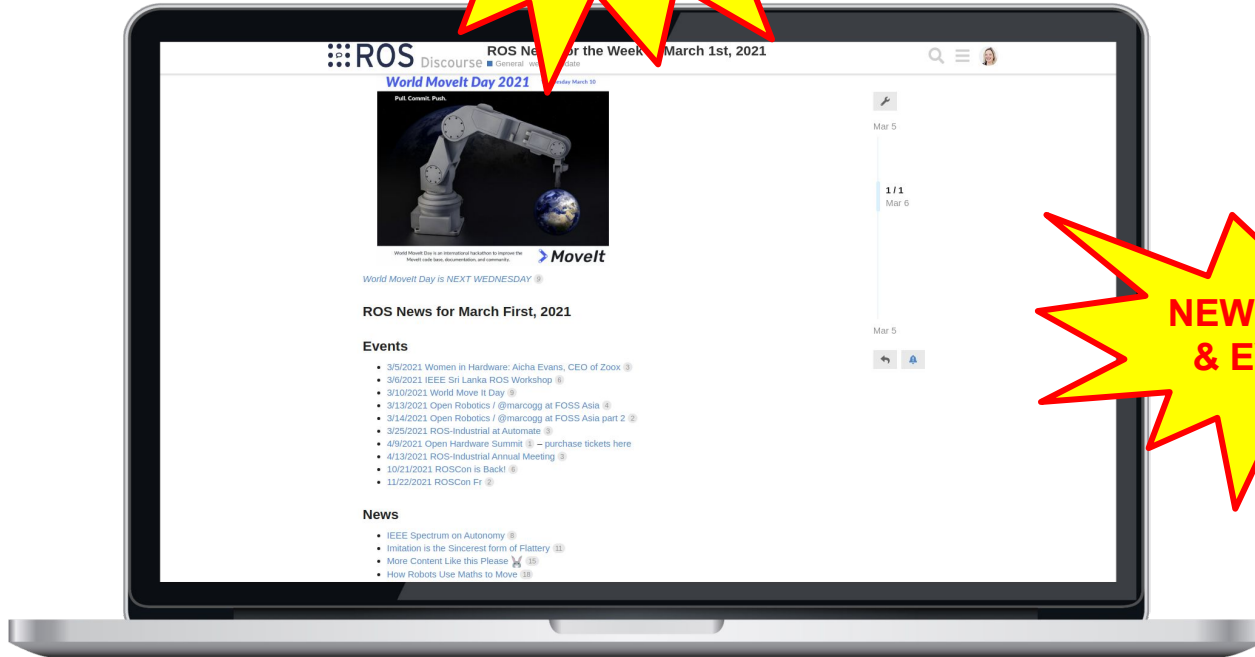

Errata: RQT Needs Your Help
